BIG MEASURES STILL PENDING

Thirty-Eight Thousand Bills Introduced, Less Than Three Hundred of Which Become

Laws

WASHINGTON, March 1-Now that billion-dollar sessions of congress are the rule. little other than appropriation legislation can be enacted during the short sessions, and the one to end this week is no exception to the rule. The appropriations for the session probably will be the largest on record, even exceeding the \$1,008,000,000 proyided for at the first session. As only one of the fifteen general appropriation bills of of the amount to be appropriated is impos-

Scarcely any of the general policies of the country were touched upon this session. The discussion in both houses of the secret service and of the Panama canal, and in the senate of the Brownsville affair and of the Tennessee Coal and Iron company purchase, has brought the administration of Theodore Rooseveit prominently in view. The veto of the census hill, because the employes for the taking of the decennial census were not to be placed under civil service regulations, was a feature in another interesting chapter of the session.

There is no method that can be used a home that will cure. When taking my treatment all patients must come to my office, and if they live out of the city they can return home the same day and follow their usual vocation.

My Claims to Your Confidence.

I am a graduate and licensed physicias and permanently established in this city, and have a first-class professional and business reputation. I claim to be the leading expert in this part of the country in the successful cure of Rupture, without a surgical operation, and have cured hundreds of people in Western Iowa and Nebraska. Recommendation.

Recommendation.

In 1907 I was afflicted with a Empine and was told by doctors that it could not be cured except by a surgical operation, but I found that some of my neighbors had been cured by Dr. Wray, whom I called upon, and he accepted my case for treatment. I put the money in a bank in my own name and was cured inside of thirty days, and signed the money over to him, and have been sound in that respect ever since.

I can recommend everyone afflicted with a rupture to take his treatment, as it is without pain and a sure cure.

W. H. NOLTE, Fostmaster,

Holstein, Is.

Hundreds of others are as grateful to me as Mr. Noite, for what I have done for

I Guarantee a Cure. I will cure all persons afflicted with a Rupture that I consider curable after an examination has been made, before accepting their money, and, furthermore, I will make my charges leasonable. Call at my office for consultation, or write and I will send literature and full particulars. As to my responsibility, I respectfully refer to the First National Bank of Sioux City, Is., or the L. S. National Bank of Omeha.

Frank H. Wray, M. B.
